Dear Sir:

Your letter with enclosed
receipt for Insignia, was duly recd. by me
stating articles were registered & sent to
me on Dec. 28th

I have since then heard nothing
of them - I asked the postman
yesterday & he knew nothing either
of such package being in the P.O.

I trust they are not lost in
this age of universal blunders & of
blunderers, who are ^{now} engaged in the
public service! Yrs. Truly H. H. Bellas.

My dear Sir:-

I am very anxious to have a complete descriptive list of the principal ceramic collections in this country and would be indebted if you would at least send me an enumeration of the various groups of pottery and ^{porcelain} ~~pottery~~ in your collection, with the approximate number of pieces. I wrote you some time ago but have received no reply. Thus far I have received data from the majority of public museums and would like to make mention of yours. An early reply would greatly oblige,

Yours very truly,

Dear Sir,

The package with the decorations, etc came safely to hand.

I hunted to find the original receipts put them away to carefully. Your receipt signed by me is sufficient.

It is a pleasure to learn that the Society was honored with a gold medal. I wanted to be present at Mr Belden's given as it would be of much interest to me but it was impossible that week, the next night I was Santa-Claude & had to rehearse

My dear Mr. Drowne,

Please find, enclosed, the formal receipt given to Mr. Raphael Tobias, for the "Gold Cross" which he lent us, for exhibition in Paris; & the two receipts given Mr. Clarkson, for the insignia which he loaned us, or secured for us.

This covers everything, except the items secured by Miss de Byster. I have opened negotiations with her; but she has not yet produced the receipts. I still hold the badges; & have no doubt we shall dispose of the matter, within a few days.

My dear Mr. Drowne,

Yours of the 24th inst., covering a note from Miss Vanderpoel, is duly at hand. The badge of the "Daughters of the American Revolution", referred to, has gone to Miss de Ruyter, with the note. As this is the badge for which no official receipt is out, I was able to deliver it, at once. In the other cases, I am awaiting the return of the official receipts, which Miss de Ruyter seems to find some difficulty in receiving.

Sincerely yours,
Woodbury G. Langdon.

Maldon. State of Victoria. Australia. Jan 15-1901.

Dear Sir. I have posted you
a paper containing an account
of the inauguration of the Great
Australian Commonwealth

It may be of some interest
to your Society. You will
also find particulars of
our Old Age Pension system
which has just come into
force. The number of appli-
cants for its benefits have
far exceeded all expectations

and the general opinion is that a mistake
has been made by our government in introducing such an unnecessary measure.
Its demoralising effects are already strongly evident. There is a likelihood
of medals being struck to commemorate our new state of existence as a
Federated Australia and the approaching visit of the Duke of York in honour
of that event. If they are worthy of notice and not too jingivistic I hope to send
you examples. This is our Commonwealth P. Card. It is only intended for temporary
use and will soon give place to the old form. Yours truly, Geo M^r Arthur.

Dear Sir:

Your letter of the 11th instant is before me. In reply I beg to say that my own deficiencies would lead me at first thought to decline so great an honor as you ask me to permit your Honorable Society to bestow upon me, for among so many men none more in learn-

ing and finance, I fear I would
appear very much out of place,
but I feel so keenly the great
honor to be permitted the mem-
bership of so distinguished a
society, whose aims are so
much in keeping with the
many years I have given to in-

Dear Sir

Your esteemed favour of the 18th was received on the 21st. I sincerely appreciated the kind spirit that pervades it, and the action of the Executive Committee of your Society. I have valued so much the honour conferred on me by your Society that it was with reluctance that I sent in my resignation. I now gladly withdraw it. I did not wish to hamper the Committee by an apparently idle membership.

While I feel compelled, when building my self a home, to dispose of my numismatic collection I have for 20 years been the active Creator of Numismatics in this Society with a collection of over 5,000 coins & medals & keep up a real practical interest in this department. It will give me pleasure to send you this week for the Society library, a copy of our 5th Volume of Proceedings, which will show also the work that falls on me in editing our ~~volume~~.

Dear Mr. Belden,

I now enclose the nomination of the King of Italy, who is nominated, as you will see, as an "Honorary" (but not Ordinary), member of our Society.

As regards my report, it was only intended as an oral statement, no formal report having been made. I stated that we had received since the last meeting 12 Bound volumes, 15 Pamphlets, 15 Periodicals, 32 Catalogues, and 5 Miscellaneous.

PAN-AMERICAN EXPOSITION 1901

BUFFALO, N.Y., U.S.A.

OFFICE OF
ASST. SUPT. OF MANUFACTURES.

ROGER RIORDAN,
156 Fifth Avenue, New York,
Room 621.

Dear Sir:-

I have the pleasure of sending you herewith enclosures relating to the Pan-American Exposition and request your particular attention to the arrangements for a special display of Art Industrial products. These comprise wrought iron and other metal work, bronzes, gold and silversmith's work, jewelry, carved wood, marble and stone; stained glass windows, artistic glassware, enamel, pottery and porcelain; wall hangings, stamped leather, embroideries, textiles, and in general all products of an artistic character.

It has been decided to roof with glass the spacious central court of the Manufacturers Building. This space will be treated as a sub-tropical garden, having the adornment of foliage and flowers with ornamental pavilions for some of the most costly exhibits. This will form a most beautiful and attractive center for the great building. The whole space thus gained will be devoted to the installation of exhibits of the Art Industrial products, and others of an artistic and interesting nature comprised within other divisions related to the building.

At Paris and at other exhibitions American manufacturers in the lines referred to have had little opportunity to demonstrate the signal advances made by them in recent years. Either the space was too limited, the arrangement of the group was defective, or the lighting inadequate. Profiting by these mistakes the management of the Pan-American Exposition is determined that no cause for complaint in these respects shall be found. Exhibitors are assured of convenient access to their exhibits, of a harmonious and attractive ensemble, and of an abundance of light and freedom from incongruous and disturbing elements.

This quiet and beautiful central court will draw to it everybody who, for any purpose, enters the building. It will provide an agreeable resting place for body and mind, and will be one of the most interesting features of the Exposition.

Applications for space should be made at once. Blanks and a copy of the rules and regulations are enclosed. Please acknowledge receipt of this communication, and oblige

PAN-AMERICAN EXPOSITION 1901

EXPOSITION 1901
BUFFALO, N.Y., U.S.A.

DR. A. L. BENEDICT,
SUPERINTENDENT,
ETHNOLOGY AND ARCHÆOLOGY.

July 15th, 1900.

Dear Sir or Madam:—

At the recent meeting of your Association, the Section of Anthropology allowed me the privilege of the floor in behalf of the Department of Ethnology and Archæology of the Pan-American Exposition. In order to reach members who were not present at the session, this letter, which embodies the substance of my remarks on that occasion, is addressed to the complete mailing list of the A. A. A. S.

The scope of the Pan-American Exposition is limited to the Western Continent and the outlying islands, including Greenland, West Indies, Hawaiian Islands and Philippines. The Department of Ethnology and Archæology aims to present all phases of these subjects, so far as practicable, in such a way as to appeal both to the popular and the scientific mind. In particular, I wish to avoid the very prevalent mistake of exhibiting a miscellaneous collection of arrow-heads, stone hatchets, pottery, etc., which means nothing without proper assortment and labelling. This department of the Exposition affords an opportunity for the publica-

tion of the results of careful study in any branch of anthropology, with the sole proviso that it applies to the aboriginal peoples within the scope of the Pan-American Exposition. This publication, instead of being old matter after a month, extends from May 1st to November 1st, 1901. Instead of reaching the attention of the necessarily limited subscription list of a scientific journal, it will reach hundreds of thousands of different individuals from all parts of the world. As Buffalo is situated within 12 hours' railroad ride of 40,000,000 persons, any exhibit made is assured a large audience.

So far as practicable, studies to be published in this department of the Exposition should be illustrated, and the illustrations should preferably be by objects rather than by pictures, although photographs and models will not be out of place. The reading matter must necessarily be very much condensed, but placards will be provided at the expense of the Exposition for the suitable elucidation of any exhibit made. My own opinion is that a placard without a specimen is of more value as a means of popular instruction than an unlabelled specimen.

A considerable number of museums, as well as students unconnected with museums, have already promised to contribute. The following topics are suggested as appropriate for elaboration with a view to exhibition in the Pan-American Exposition. Some of these topics have already been taken and personal correspondence is requested in order to avoid duplication. Suggestions of other suitable topics will receive prompt consideration.

Very truly yours,

A. L. BENEDICT.

P. S.—If this letter is not of interest to yourself will you kindly forward it to some person, not a member of the Association for the Advancement of Science, who might be disposed to co-operate with this department.

LIST OF TOPICS.

Mortuary customs of the aborigines.

Prehistoric trephining.

The relation of domesticated animals to civilization and the *hindrance of* the development of American peoples on account of the *paucity of domesticable* animals.

Aboriginal agriculture.

Prehistoric llama roads and trails.

Variety of foods used by the aborigines, as shown by kitchen middens and other evidences.

Visual communication of thought by the aborigines. Mexican codexes and hieroglyphics. Comparison of Mexican and Old World hieroglyphics.

Transition period in which the American aborigines retained their autonomy and primitive customs while using European implements.

Methods of aboriginal torture.

Cannibalism. Its economic and religious significance.

Religious observances of North American Indians, contrasted with the idolatry of the Mexicans.

Aboriginal traffic, as illustrated in the finding of ocean shells inland, and other implements at long distances from the base of supply.

Economic geology of the aborigines.

Methods of trapping animals, birds and fishes.

Evidence or lack of evidence of the antiquity of man in America. Does the so-called "elephant mound" of Wisconsin indicate the co-existence of man

with the mastodon? Are there any other indications that man was contemporaneous with extinct animals?

Significance of color and pattern in wampum belts.

Method of manufacture of chipped flint implements.

Evolution of the pipe and bird stone from the primitive war hatchet.

This list, while far from complete, and not even including certain exhibits already arranged, will afford an idea of the general scope of this department of the Pan-American Exposition. So far as possible, we wish to be independent of mercenary collectors and to exclude collections of Indian relics made with no scientific knowledge. At the same time groups of specimens from definite localities are always of scientific value, and it is desired that any topic chosen shall be illustrated by actual specimens and models, so far as possible. A special feature of the Exposition will be an art gallery limited to portraits of aborigines and to modern works of art taking their theme from aboriginal modes of life.

Dear Sir:-

This division of the Pan-American Exposition will include one or two book cases to illustrate the literature upon American Archaeology, Ethnology, Indian History and allied subjects. If you care to send on any of your writings for this cabinet I should be most happy to receive them.

It will not, of course, be possible to place these books so that they can be consulted by everybody, but a list will be exposed near the book cases so that any who are interested in the subjects mentioned may consult the library.

Very truly yours,

A. L. Benedict.

PAN-AMERICAN EXPOSITION 1901

DR. A. L. BENEDICT,
SUPERINTENDENT,
ETHNOLOGY AND ARCHÆOLOGY

Dear Sir:-

The department of Ethnology and Archaeology of the Pan-American Exposition has set aside an Art Gallery entirely distinct from the main Art Building of the Exposition for the purpose of presenting painted portraits and photographs of typic Indians and works of art reproducing, as faithfully as possible, the modes of life, costumes and occupation of the aborigines. A number of well known artists have already signified their willingness to contribute to this branch of the department of Ethnology and Archaeology and it is desired that others should do so.

As the space available for this purpose is limited, it is desired that applications should be made as soon as possible.

Very truly yours,

A. L. Benedict.

Jan. 1901.

Dear Sir:-

Exhibitors in the Division of Archaeology and Ethnology will kindly observe the following rules, their object being to guard against loss and breakage of specimens in unpacking and confusion relative to repacking at the close of the Exposition.

- 1st.- Use official labels which will be sent from this office upon application.
- 2nd.- Fill out these labels completely.
- 3rd.- Place the label on the top only of the box or trunk used and do not place any other address on the box.
- 4th.- If possible, use a packing trunk or chest with lid which can be locked and send the key by mail to the undersigned. If an ordinary box is used, fasten the top with screws. The Exposition will not be responsible for damage to specimens.
- 5th.- Place immediately under the lid an envelope containing a full list of the contents of the chest or box. So far as possible, use the duplicate application blank and addressed envelope supplied and have the list typewritten.

2.

6th.- Use an abundance of crumpled paper, bran, excelsior or other packing material about all fragile specimens.

7th.- In order that there may be no possibility of throwing away small specimens, wrap all specimens in white tissue paper. If it is necessary to place other packing immediately about the specimens, enclose the wrapped specimens in white tissue paper. Do not use in the chest paper which can possibly be mistaken for the white tissue paper. There is no objection to using newspapers or wrapping or tissue paper of a decided color other than white, but paper of a light tint should be avoided.

8th.- Exhibitors are required to install their own exhibits whenever possible. Assistance will be furnished for opening boxes and for any heavy lifting required without expense to the exhibitor. The expense of transportation cannot be borne by the Pan-American Exposition.

9th.- Exhibits installed by the Division of Ethnology and Archaeology in the owners' absence will be treated with every possible precaution against damage and loss but no responsibility will be undertaken by the Exposition.

10th.- All exhibits not under the constant supervision of the owner or his authorized representative must be sealed as soon as installed and cases cannot be opened except on application to the Superintendent. The Superintendent also

3.

reserves the right to open cases at his own discretion without specific permission from the owner.

11th.- Labels will be furnished designating the locality of specimens, stating whether found on the surface, in graves, mounds, etc. and in general, giving all scientific data in brief form. It will not be necessary to designate each particular specimen, as arrow head, spear head, celt, etc. and so far as practicable, labels should apply to groups of specimens. Please mail manuscripts, type-written if possible, so that all labels can be prepared before March 1st.

12th.- All exhibits should be shipped so as to reach Buffalo during the month of March. Exhibitors outside of the United States will receive special instructions and labels to insure the entrance of their exhibits duty free.

Very truly yours,

Dear Sir.

I have received a copy of the Proceedings and Papers of your society for last year and am glad to learn of its continued progress and prosperity. I have read with great interest and pleasure the various addresses delivered and papers read by your members. particularly your own on the "Insignia of American Military Societies." I have a large collection of British and Foreign war medals and decorations - about 200 varieties - and 24 very fine Orders of Chivalry. Among the war insignia ^{U.S.A.} there are several items on which I would ask you to kindly enlighten me. particularly as to the purpose of the silver cross and silver shield of which I enclose rubbings which you will doubtless recognise. The two other rubbings I would also

I would like to subscribe one of your U.S. Numismatic journals. W.

Like to get some information upon at your leisure.
I have much pleasure in sending your society
nine small medals struck in connection with
the inauguration of the Australian Commonwealth
and the Royal visit last year. There were 250,000
of the shield-shaped medals struck by the Victor-
ian government and distributed among that
number of State school children in commem-
oration of the establishment of the Common-
wealth and the opening of the first Federal
Parliament by the Duke of Cornwall in May,
1901. The one of Maltese cross form was struck by
the South Australian government two years ago to
the number of 25,000 for general distribution when
the British troops should enter Pretoria. Our jingoes
here were confident that peace would then be declared
between the Boer Republics and Great Britain
but their anticipations were rather premature as
the war is still being vigorously prosecuted by
the brave, indomitable Boers. I need hardly say

I miss the reports of your meetings formerly given in Opinions Numismatic

which would you recommend?

that these "Peace medals" are still unissued and ^{they} will assuredly be destroyed by the silly government that caused their preparation. Through the kindness of Mr Stokes, the die-sinker I secured two specimens, one of which I send you. They will be rare as Mr Stokes informs me that he has only given six to his friends. I also have posted you a "Voter's Certificate," issued to those who voted at the Federal Referendum Poll held on the 27th July, 1849. A friend generously gave it to me for presentation to your Society. I have one of my own nicely framed. Although the Poll was held 2½ years ago the Certificates are only now in process of issue very slowly. The government in power at the time that authorized their issue were ejected from office. Their successors repudiated the obligation. Another change in government took place who half-heartedly consented to issue them to all who applied by letter to the Chief Secretary before the 31st Dec. last. Although 163,783 votes were recorded only 35,000

his Circular. Can they not be continued?

have thought it worth while to make application. The
one I have sent may be of interest to some of your
members. In the same parcel I have enclosed a copy
of the speech delivered by Mr Higgins before the House
of Representatives on the inhuman war now being
waged by Great Britain against the South African
Republics. He fearlessly and truthfully expresses
the sentiments and opinions of every honest man
whose mind is not warped by prejudice ^{whose nature} ~~and~~ ^{is not} bru-
talised by jingoism. Our colonies are now begin-
ning to see the mistake they have made in inter-
fering in the muddle. as muddle indeed it is
from the beginning and will be to the end. I am
quite aware that this matter is outside of the inter-
ests of your Society but for its introduction here
I plead as an excuse the impossibility of those in
other countries learning through the press the
real feelings of a very large and intelligent
portion of the Australian Colonists. For my own part
I place Humanity before Loyalty. With best wishes.

I am, Yours faithfully Geo M Arthur.

Dear Sir:-

In reply to your returned communication of February 13th will say that I regret exceedingly that I am unable to meet your kind invitation to become an active member of the A. S. S.

In severing my connection with the Society I feel no excuse again my sincere thanks for the honor you conferred upon me almost ten years ago at electing me to

memberships, I have always adhered
to my connection with the Society
with much pride, and I must
also thank the members for the
kindly welcome and the
occasion of my only visit to the

It is a source of regret to
me that other duties have pre-
vented me taking an active

Yes, indeed, thank you.
I think I should like

My dear Mr. Drane,

Replying to yours of the 14th inst., I enclose seven receipts, for "indignia", etc., secured through Miss de Peyster, which, I think, cover everything for which I am responsible. You will find four (4) "original" receipts; - 1 to Geo. Austin Morrison, 1 to Geo. Austin Morrison, jr., + 2 to Mrs. James M. Lawton. = 4 (3) three "substitute" receipts, from Mr. de Peyster, Mrs. Scarborough, + Miss Vanderpoel, respectively. The "values" are not mentioned, in the receipt from Mr. de Peyster, + Miss Vanderpoel; I saw your letter, suggesting that they be stated, (in the "substitute" receipts) had not come to hand, when these two were secured; + it seemed hardly worth while, as the articles were safely returned, + acknowledged, to ask Miss de Peyster to do the work over again.

These receipts should have gone to you before; but I waited for the "original", from Miss Vanderpoel; which Miss de Peyster promised to secure; + lately, I have been so much indisposed as to be hardly able to work. I remain, Very cordially yours,
Wendell G. Langdon.

Report Of The Committee on Paris Exposition.

Mr. President & Gentlemen:-

At the Annual Meeting of a year ago quite an extended report was made descriptive of the coins, medals and decorations sent to the Paris Exposition. The material arrived safely in Paris, and thanks to the energetic work of our fellow members, Messrs. Bremner, Saltus and Kunz, the case was in place and the exhibit ready on the opening day.

It is very gratifying to the Committee to be able to report that we have received a notification to the effect that the Society has been awarded a Gold Medal, and steps have been taken to procure same for our cabinet.

At the close of the Exposition the coins, medals, decorations, and the case as well were packed up and returned, arriving safely and all the valuable material has ^{since} been restored to their proper places in our Cabinets, and the Orders and Insignia of the Military, Patriotic and Historic Commemorative Societies of this Country have all been safely returned to their various owners.

The correspondence regarding this loan collection, and the receipts given at the time of securing the loans, and acknowledging the return of the decorations have all been carefully preserved, so that the Society has been completely released from all the obligations incurred, and we now take pleasure in returning all the documents and memoranda over to the Society for preservation in the archives.

Our members will be glad to learn that the sending of this collection to Paris, and its prior exhibition in New York, not only resulted to the benefit of the Society both at home and abroad, but has

also led to the formation of a collection of Insignia and Decorations of Military & Patriotic Societies, and though only a year has now elapsed we already have possess quite a fair representation, chief among which is that of the Society of the Cincinnati.

As your Committee rests from its labors, it would seem in order that it now be discharged.

Respectfully submitted:

Report of
Committee on Paris Exposition.

At the regular meeting on Monday Jan. 15th, 1900, it was moved and carried that the Society send a collection of numismatic material relating to America to the Paris Exposition. As Chairman of the Committee it gives me pleasure to report that through the kind assistance of our corresponding secretary, Mr. ~~King~~^{May}, a desirable corner location was secured at the Exposition, and also ~~rent~~^{fire} burglar insurance secured to the amount of \$6000. to cover our collection. A beautiful glass case 6 ft. 4 in. high and 5 ft. long was made here and set up in our rooms, and the entire collection exhibited in it on Thursday, Dec. 1st, 1900, and since then taken down, packed and shipped to Paris. The Committee confined the ~~material~~^{matter} for exhibition entirely to American Material, following out the following general lines in COINS-

Types of the coinage of the United States in gold, silver and nickel, and copper, and proof set 1900.

Pine Tree and New England, Colonial Money of Massachusetts.

General Types of the Colonial Coins, both before and after the Revolutionary War.

Washington Cents and Tokens 1783-1795.

Hard Times Tokens of 1837

Tokens of the Civil War 1861-1865

Coins of the Confederate States

Gold Coins of the Mormons of Utah.

Gold Coins of California, Oregon and North Carolina.

And in MEDALS:

Medals issued under the direction of our Society.

Medals of the Admiral Vernon Series 1739.

Medals of the Colonial Period, of the War of the Revolution, and celebrating the acknowledgment of the Independence of the United States both in Europe and here.

Medals of the War of 1812.

Medals of the Mexican War.

Medals of the Civil War.

Historical Medals of the United States.

Medals of the Presidents of the United States.

Medals of Homes of the Presidents.

Medals of Distinguished Americans.

Medals of New York City.

The selection and arrangement of all this material necessitated a great deal of laborious and painstaking work on the part of our Curator, Mr. Edward Orch-Mearly all the coins and medals being from the cabinets of the Society, with here and there a missing type generously supplied by a few of our members.

Additional to the coins and medals a new filed was entered into, and a loan collection formed of the Orders and Insignia of the Military, Patriotic and Historic Commemorative Societies of the United States, altogether 80 specimens were secured, many of beautiful design, and several of great rarity, making an interesting and artistic exhibition, and one which we trust will reflect credit abroad to the various Societies represented.

Prominent among these Societies were the following:

Society of the Cincinnati.

Mil. Soc. War of 1812.

Aztec Club of 1847.

Loyal Legion.

Grand Army of the Republic.

Mil. Order Foreign Wars.

Naval Order.

Societies of the Army of the Potomac, Cumberland & Tennessee.

Fifth Army Corps, together with a number of the Army & Navy Veteran Organizations and Posts-Sons of Veterans, etc

In the class of the Patriotic and Historic-Commemorative Societies there were represented:

The Soc. of Colonial Wars.

Sons of the Revolution.

Sons of the American Revolution

Gen. Soc. War of 1812

Society Indian Wars

Soc. of Founders & Patriots

Mayflower Decendents

Holland Society

Decendents of Colonial Governors

St. Nicholas Society

Soc. of St. George

Soc. of St. Andrew

Huguenot Society

Pepperell Society, and others.

Among the prominent women's Patriotic Societies were:

The Colonial Dames

Colonial Dames of America

Daughters of the Revolution

Daughters of the American Revolution

Daughters of the Cincinnati
George Washington Memorial Association
Daughters of 1812
Womens Relief Corps C. A. R. , etc.

The Committee in this direction desire to express their thanks to our Vice President, Woodburg C. Langdon, for his kindly assistance in securing from personal friends many decorations which they could otherwise have been unable to secure.

A photograph of the collections of coins, ~~medals~~ medals and decorations as exhibited in the case has been taken and members who desire a copy can order same through our Curator.

Our fellow member, Mr. Victor D. Brenner, at present residing abroad, has kindly consented to take charge of our exhibit at the Paris Exhibition, and the Society will be officially represented abroad by its members, Messrs. Soltus, ^{Wm} ~~Wm~~ St. Gaudens and Brenner-Respectfully submitted

Report of the Committee on Papers and Publications

Mr. President and fellow members:

Our Committee on Papers and Publications would report that during the year three meetings have been held under its auspices:

December 6th 1900 Mr. Andrew C. Zabriskie read a paper entitled "The Medallie History of Abraham Lincoln" illustrated with ~~di~~ stereopticon views, at the same time ~~in~~ a silver loving cup was presented to Mr. Edward Froh, the Curator and one of the founders of the Society, - by Mr. Henry Russell Brown, on behalf of a number of the members of the Society.

December 27th 1900, Mr. Bauman L. Islden read a paper on "The Insignia of American Military Societies since the War of 1812," and exhibited a ~~very~~ large number of specimens. The insignia that formed a part of the Society's exhibit at the Paris Exposition was also on exhibition.

February 14th Mr. Charles Pryor read a paper on "Early Irish History as Illustrated by its Coins."

The Proceedings ^{and Papers} of the Forty-second annual meeting ~~and~~ were printed and distributed in the early fall.

Respectfully submitted

J. Sanford Sittler,
Charles Pryor
Henry Clinton Bucklee
Committee.

WHEREAS, at the Annual Meeting of the American Numismatic and Archaeological Society, held on the 16th day of March, 1891, a resolution was unanimously adopted in favor of securing a house for the use of the Society, and of raising the sum of \$50,000 for that purpose. And, whereas the following members of the Society, namely: Messrs. Andrew C. Zabriskie, H. Russell Drowne, Herbert Valentine, Charles Pryer, William Poillon and Daniel Parish, Jr., were at said meeting appointed a Committee for the purpose of soliciting subscriptions towards such society house.

Now, we, the undersigned, hereby subscribe the sums set opposite our respective names here below, it being understood that our subscriptions shall only be binding upon us when the sum of \$40,000 is subscribed, and that such subscriptions shall be due and payable three months after said sum is subscribed (on notification from the Treasurer of the Society), or at such other time as may be specified by a subscriber in connection with his subscription.

And, when the amount of \$40,000 is payable, it shall be deposited at interest in one of the Trust Companies in New York City, until, in the discretion of the committee, a suitable house has been obtained.

My Dear Mr. Belden,

Enclose receipted
bills of Messrs. Mills and Canfield
as requested. I can only find
two receipts among the bills that
show money spent beyond a
doubt for books or coins, one
of eight dollars to Mr. Valentiner
and the other of two fifty, for
proof set, to Mr. Cook, now there
are other bills that must be largely
for these objects, but they deal so
much in beautiful generalities
that it is difficult to pick them
out. The following however would

be so small, it seems to me
that it would appear better under
the head of sundries.

Hoping you recovered

I send you herewith an exact copy of the Brenner Resolution as framed.

Have you the plans or sketch of the case which was used at the Exposition?

It may, possibly, be included in material handed to you by Mr. Browne last evening. I expect to advertise the case for sale and would like to have the plans as a help in doing so, I mean, in selling.

By
Mr. Edward Gook
March 18, 1901

It seems to me it would be a graceful acknowledgment
of Gov. Prince's researches in New Mexico and of his interest
in our Society, to make him an Honorary member at
the meeting this month when he will address the Society.
I accordingly enclose a nomination in request that it be
presented to the Executive Committee.

I also enclose a list of new members who have accepted
and those from whom I have not heard. Also nominations
for new members and some other papers that explain
themselves.

Will you kindly hand the enclosed badge Dept. Montana
S.A.R. to Mr. Gook.

Dear Mr. Fabrick:-

As I will be unable to attend the meeting of the Executive Committee to morrow I would like to have the following resolution presented on my behalf.

Whereas: Mr. Edward Froh has generously donated to this Society a cabinet containing his entire collection of Civil War Tokens numbering 336 pieces, many of which are rare, and some known to be unique and which is the largest collection of these pieces in existence, therefore

Resolved: That the thanks of ~~the~~ The American Numismatic and Archaeological Society be tendered to Mr. Froh for his most generous gift.

Resolved: That this collection be kept intact in the original cabinet that it be known as "The Edward Froh Collection of Civil War Tokens," and that a silver plate be prepared and suitably inscribed with a statement of the facts and attached to the front of the cabinet.

A resolution of thanks was passed at the Annual Meeting. If the above is approved by the Executive Committee I will put it in the printed proceedings as ~~that~~ the resolution adopted then.

Regarding the plate I would suggest a small plate on each door of the cabinet to read as follows:-

As you were unable to be present at the meeting this afternoon, I was requested to act in your place and as you will find on reading the enclosed, nothing of great importance occurred.

Saturday or Monday I expect to leave town for two or five days, and on my return it will be time to see about having the report published and I will want to see you before long.

I was fortunate while in Washington in being able to pick up for seven dollars a badge and ribbon of the Royal Legion which I have given to the Society. Have you heard from the Florida group? I don't think it strange if you have not for they are very slow about things down there.

My dear Mr. Belden:-

I duly received your letter yesterday. I am in town to-day, but it is very uncertain when I shall be in the city again.

I regret to learn that your printer has not yet sent the cards for Mr. Prince's lecture to this office. It is absolutely necessary that those cards be received here to-morrow (Wednesday) and they should have been delivered not later than yesterday morning.

I am extremely annoyed to hear that you have failed to receive Mr. Saltus' minutes of the recent Executive Committee meeting, enclosing three original application blanks.

Fortunately I can recollect positively two of the three, and I think I shall be able with Mr. Hewitt's help to discover the other. If you will call at this office the next time you are in town, you can find out the particulars.

Yes; I think it would be a good idea to call the Executive Committee together fifteen minutes before the time for Mr. Prince's paper.

While dictating this letter, a messenger has come in from Mr. Saltus, announcing that the King of Italy has accepted honorable membership in our Society. If I say this is most gratifying, I think you will agree with me.

You have failed to send Mr. Hewitt the names and addresses of those elected, which you promised to send.

Dear Sir:

I much regret that a prior engagement will prevent my being present at your meeting on Thursday evening next, especially as I am much anxious to hear Gov. Prince's advocacy of methods of Preservation of the Antiquities of the South West. No one, by personal study of the subject, years of open & avowed interest, constant agitation by voice & pen, has done more to further intelligent appreciation of the antiquities of New Mexico than Governor Prince, & I am more than delighted to know of his present persistent endeavors to bring about such a state of affairs as will arrest the dire vandalism of the past few years & preserve to all the people for future use these fascinating & interesting remains.

Dear Mr Belden: First let me say
how sorry I was not to see you on
Wednesday & express my regret that you
lost so much time in waiting.

I got in a moment after you had left.

We are much upset by the illness
of my little boy. He has bronchitis
& we are anxious about him as he is
quite weak. His fever is not high, which
is favorable. I would acknowledge both
your letters - of the 26th ult. & the 2^d inst.

Glad we have another life member
I return the minutes of the Ex. Com. making
with a few slight corrections

I met Sallies at the room on Wednesday
She showed me the gold medal for the
King of Italy & I signed the certificate
of membership. He will send them off
at once.

We should have a meet-
ing of the Ex. Com some time during the
week commencing Monday May 13th

I will be in town next Thursday & if you can conveniently call I shall be glad to see you. We can settle the day then or if you don't get in I will write you. I have no heart to write of chickens or anything else until little Christian improves.

Sincerely yours

Dear Mr. Belden:-

Pardon the long delay in giving any attention to your letter. I have no criticism to make, it has all been well drawn up and cannot but please the members and bring good to the Society.

Within a week, Messrs. Tiffany & Co. will have together a large number of such things they have made, which will be exhibited at Buffalo, and any of which will be at your disposal for study.

Believe me,

Very truly yours,

My dear Mr. Elden,

Your letter of May 2nd received, and should have been answered before this, but I have been quite ill with a bad cold on the chest. I have not been able to go out for several days, but I hope to see you at the meeting in Mr. Gabrielski's office next Wednesday.

I am glad you have heard from Florida, that an awful fire that was in Jacksonville! The old James Hotel was almost like home to me, and I don't think there will ever be another like it. They don't build hotels like that now.

I sent the gold medal &c. to Rome on May 2nd.

My Dear Mr. Belden

A severe cold, caused by a ducking in yesterday's rain storm, will I fear prevent me from attending the meeting tomorrow evening, I will therefore have to trouble you to read a short statement of the financial condition of the Soc.

All bills you sent me the other day have been paid and deducted and the funds stand as follows.

General fund.	\$ 1193.34
Life membership fund	\$ 121.25
Uninvested	

It might also be well to state that

since the last meeting of the Soc.
One \$1000.00 Bond of the Chi. Terminal Co.
bearing 4% interest has been purchased
at a cost of \$968.75, including ~~commissions~~
I think as this is a mere general idea
of the condition of affairs, and not
an accurate report I have nothing
more to say

Hoping you will have
a good meeting I am Very Truly

Yours

Chas. Ryer.

Dear Mr. Belden:-

We leave this afternoon for Province Island, and I do not expect to be in the city again until the early part of September.

We have had such wonderful luck in not having any deaths among the members of the Society, ^{recently} that I am afraid that the law of averages will cause several deaths during the Summer months.

I enclose herewith the two forms of death notices I have used. The second form is used where it is impossible to ask the members to attend a funeral service.

The usual papers in which the notices are inserted are the "Herald" and the "Evening Post", but in case there is not time to get it in the "Evening Post", I would put it in the "Tribune" and the "Herald".

Of course if some very important member or officer die a different notice should be inserted, which you will please prepare.

My office will be open continuously, and is at your service if you want any help in this matter. I shall write you after reaching the lake.

Sincerely yours

Andrew C. Zabriskie

CRIPPLE CREEK, COLO., the place for the next session of the Trans-Mississippi Commercial Congress, is geographically almost the center of the Trans-Mississippi Territory. Cripple Creek is the principal city of the Cripple Creek gold mining district, the annual output of which is \$25,000,000.

The Cripple Creek district has 200 shipping mines and a population of 60,000, over one-third of which is in the city of Cripple Creek. Railroads, standard and narrow gauge, penetrate the district, and one can take Pullmans from any point on the continent and make the journey expeditiously, without danger and with every comfort. In the district electric cars are operated between the cities and from mine to mine, giving rapid transit to the visitor over the most interesting section of country ever witnessed.

Occupying a position upon the very dome of the continent, Cripple Creek presents a scene of unparalleled grandeur. No other spot affords more attractive features to the delegates during the heated term.

The local executive committee having in charge the entertainment of the Trans-Mississippi Commercial Congress is making elaborate plans, so that every point of interest in this most wonderful section will be brought to the personal attention of visitors. The deepest and richest gold mines in the world will be descended with the same ease and safety as one rides in a hotel elevator.

In the midst of this scenic panorama Cripple Creek is located, of itself a place of great interest. It is no longer a mining camp. From this point it has grown within ten years to become one of the most important cities in the West. It has electric railroads, electric lighting systems, handsome buildings, fine hotels and every modern convenience. There will be first class accommodations for all delegates who attend.

Railroads have made the usual low rate from all Western and Eastern points into Cripple Creek, and the committees are arranging for the largest session in the history of the congress.

Dear Mr. Belden:

I congratulate you upon the success you have had in gathering the G. A. R. badges.

I hear very good things from Salties about the progress of the Proceedings. It is fortunate he is in town this year. Next season, with the annual meeting in January all this work can be done in the late winter & the Proceedings sent out by Easter. I do not know of anything requiring a meeting of the Ex. Com. Should such a need arise however, my office is at the service of the Com. Summer meetings should always be held term-term.

The children show great benefit from the change of air.

Mail service has been only tri-weekly by steam launch but

Commencing on Monday we expect to
receive a daily mail as the large
steam boat will commence to run on
that day. I am indulging in much
practical poetry work & have some very
fine pullets (or rather yearlings) from
a cross I made last season.

Here I can give the personal at-
tention impossible to give at Blakenood.

Pomice Island

Dear Mr. Belden: I duly rec'd yours of the 28th inst.

I enclose the letter of Walter Aldrich, which you sent to me some time ago & asked for advice. I think we can do nothing with him before Fall. His name has been printed in the Proceedings. Have you ever carried out the request I made to you at a meeting of the Ex. Com., to write to Mr. Wm. Hayes Ward & ask if he could rec'd a letter from the President & if so did he answer it? Please do so some time.

I have 165 chicks & they are now reaching the brooding stage (for cockerels). They are mostly a cross of Black Minorca cocks with the "daughters of the Black Bister" (beautiful birds resembling Pouter & Cochins in coloring). The cross is mostly black with lip feathering nearly red off. They may prove too light weight & shape to suit me & I shall probably have to breed the pullets next Spring to Buff Cochins & Buff Cochin roosters again.

I think you have had great success. 3 lb chicks July 1 raised by hens are great. Personal attention is the great secret of success in my opinion.

Mr. Hamitt writes you asked whether Purie Lorrilance ought to have ^{secret} notices. He is probably dead & buried by this time but in case he is not I should say decidedly yes.

He is the old man. - Had failed to come in today, my latest papers are Sundays when he was still alive.

Daltus, Brenner & Gosh have recently written me.

Have you seen Brenner.

Our highest thermometer was 92° on one day during recent hot spell & on 2 other days 89° . Have never known it to exceed 90° here before. We continue well. Hope Mrs

Belden, the little girl & yourself have not fallen victims to the heat.

Mrs Zaluski sends her regards.

Andrew Czabinski Esq

President Numismatic & Archaeological Society

Dear Sir.

At the last meeting of the Trustees of the New York Academy of Medicine it was decided that it would not be possible to lease the room on the top floor of the Academy any longer to the Numismatic & Archaeological Society and I was instructed therefore to inform you so that you might secure other quarters.

The relations of the two Societies have always been most harmonious & the Trustees regret that it is not in their power to retain in (sic) longer as tenants

Very truly

Gentlemen:-

I have an opportunity to purchase an old bill
of the following description. Please let me know about its value.
Written in the year 1477.

" " Latin

Belonged in 1763 to College Societies of Bamberg.

" " 1878 to Dr. Geo. C. Beck of Cinn. O.

Will state my object in buying the same,
would be as an investment, and in case you can
give me the names of any person in N. Y. interested
along this line, please address me ^{and} should they be
fortunate enough to buy the same, they would be as
thankful as I will be. — I enclose stamp for reply.

Mr King Dear Sir

I saw by an advertisement your address. I have some old coin (one) I think is saleable.

It is an American one cent the same as the small pennies of present date only about half as thick it is the natural thickness it has the Indian head on one side and dated 1806.

I have had some offers but hope it is more valuable if you buy let me know at once how much the same is worth.

I have 2 Coppers one 1820-1831

Dear Mr. Belden: I duly
rec'd your letter of the 11th inst.

It was a good idea about getting
the Swedish plate money; I also called
Mr. Groth's attention to some private
gold in Chapman's Phila sale on
the same day as Louis.

The original Black Oyster is very
much alive, is 9 $\frac{1}{8}$ yrs old, has
laid 40 eggs this season & has now
started her nest under the rear otrop
& is setting away on 11 eggs!

I doubt whether they are fertile
if they are they will not be good
for much as the fathers are her
own sons of last year.

You have got the right ideas
about chicken raising & I think you

will do well; especially as Mrs. Belden is also interested

The enclosed copy of a letter rec'd a few days ago is decidedly surprising. It seems as if there is something behind it. Two reasons have come to my mind, one of which is this: I recollect when we leased the room we were told the Academy could not legally make a lease because it was exempt from taxes.

Now what I think is that somehow or other the authorities have learned we are paying rent & are threatening the Academy for taxes.

They can't get rid of us however before May 1, 1902 or my knowledge of real estate is worth nothing.

Unless the receipts which Pryer lets say "rented for one month only"

It all turns on this. I will find out from Pryer & meanwhile I want

My dear Dr. Zabriskie,

I wanted to drop in
to see you personally about
the action of the Academy of
Medicine, but found you
had left town.

We are very sorry to
be obliged to case so

a library will be
very much cramped
for our library &
reading rooms in
the near future.

If you know of any
one who thinks medical
libraries ought to be
encouraged & our
friend we are very
willing to be helped.

My sister & I have
concluded that it would

desirable, a tenant - as
the American Numismatic
& Archaeological Society,
but after discussing the
matter at length it
was decided that we
would be compelled to
ask you to move.

We have been growing
more & more pressed
for room each year
& unless we can secure
additional space behind

be better to turn the old
house into business & I have
bought the house of the
Wards 9 East 45th Street &
am altering it to suit me.

The sea was exceptionally
good & I looked at a
number of houses before making
this selection, so I trust it
will not be promptly surrounded
by stores.

Remember me kindly to
Mrs Galuskie & believe me
Very sincerely

Dr. Sayre's letter

Dear Mr. Belden:

I duly
rec'd your letter & I quite agree with
all you say abt. the room business.

The enclosed personal letter
from Dr. Sayre I think you ought
to see. It is a very nice letter but
I think he is dodging the question.
There seems to be some reason behind.
If they need entertainment so much
our poor little room can't help them
materially. I am happy to say
I have examined a receipt which
Paya sent me & there is nothing to
show they can turn us out before May
1st. I, from my knowledge of real
estate law, confidently affirm this.

It is well to keep this whole matter
quiet until we have a meeting of

the Ex. Com. in Sept. When do you go
away & when do you return?

I suppose we can have a meeting
about Sept 20th. I return on the
10th but we could hardly get a full
meeting before the 20th.

The revised proof went astray
- some stupid blunder of Putnam's -
they are sending me duplicates they
say. The Proceedings will be ready
just about right time.

We are considering the insertion in a new edition of our work, of a suitable number of articles relating to societies of a national character or reputation. It might be a matter of mutual benefit if you could send us any data showing the standing of your organization in a national way, and the part your society plays in its particular field; also facts relating to date of foundation, membership, equipment, history, publications, past and present work, etc. These would furnish us material for a short paragraph, and not only would be of aid to us, but of some benefit, we think, to you. In case there is more than one society of a national character in your field, would you not kindly indicate the fact?

Dear Mr. Belden:

I duly rec'd your letter of the 20th inst;
also your previous letter, which I don't think I have answered.
I return your enclosures. It is a great pity Mr
King was so dilatory in sending his report. I think
however it can be used still to advantage, in the next
Proceedings. You know that will be a semi volume as it
comes out as soon after January as possible.

This man who comes from Providence does not seem to
be recommended by Mr. King but if he is respectable it would
be a pity to lose him. Plenty of time to look him up
as there will be no elections until November.

We expect to return to Blithewood Sept 5th. If you will
leave your minute book &c at office before you go away
we can have it for the Ex. Com. meeting which will probably
be held about Sept 18th. I will issue the notice.

The Black Sister hatched 2 eggs - 8 were rotten (none
fertilized) & 1 had in egg. Chicks are fine but poor B.S. is
now quite blind & moulting coming on. She can't

Baltus is still at Halycon
but returns to N.Y. early in Oct. I hear nothing from Mr.

school has recently had notices in the Boston Transcript -
Dom Topics - Vogue and My Oyster. We are getting some

Belden's last directions As for the Peck Gold medal I
think it has only a slight degree of interest & the old gent
who owns this "facile ^{de} disloca" probably wants several
times its value in metal for it. Might it not be well not
to answer but refer it to New York at the next E. C. C.
meeting? We are very anxious to get back & look after
our business & feel we have been here entirely too long - our
reward is in the good health of the little ones.

My dear Mr. Belden,

I suppose your vacation is over, and you are home again, so I write to you at your usual address. There have been no letters sent to you in the Society box, and so I did not write to you while you were away. The "Proceedings" have been corrected and are now at Putnam's, waiting to be sent out next month, and I often think how much better it will be when they are in future published in the winter, and not in the summer. I hope you have had a pleasant trip.

Yours most truly

to write back before now and go to Belmont and
am not able to write back. I think the shortest

My Dear Mr. Belden,

I enclose the bills
that you requested for Messrs.
Fournelle and Nicholson, both
of the gentlemen were sent
duplicates of these - in Sept.
1st but have not returned.
Now for the new members
who have failed to qualify
Walter Henrich, elected Jan. 1901
Robert E. Dowling " " Mar. 1901
Chas. Howard " " " " "
Arthur Livingston Platt " " "
H. A. Richardson " " "

I also reported at the committee
meeting, Herman E. Montross, but
since have received his check
so he is all right. All these ^{gentlemen}
were all sent bills on Sept 1st.
Many thanks for your kind
wishes for a pleasant summer
and I hope you had a thoroughly
good time on your vacation
which you were enjoying I
heard when we had our meeting
at Mr. Zaborski's office. Looking
to see much of you during the
coming season.

Dear Mr. Belden:-

I duly received your letter of the 25th instant. I would like very much to have a talk with you, but just now my days at the office are extremely uncertain.

You know we are moving from No. 2 West 56th Street to No. 716 Fifth Avenue, and when I am in town, which is only about once a week, part of my time is spent up there. As soon as I have a day at the office free, I will drop you a line.

The entire Executive Committee was appointed a committee to look after the location for the Society. I suppose you saw that, however, in Valentine's minutes.

Sincerely yours,

Andrew C. Zabriskie

to Mr. H. H. H.

My dear Mr. H. H. H.

Just before noon this morning an envelope
came by the post and I have it now in my hand.
I had I could tell you the contents of the
page to be inserted, but it is the first of
Mr. Taylor's paper on "Euthanasia".
I shall be at the Society room next
morning and hope to see you there. I am
sorry of the learning, but I am going
to give to the Society and I will show it to you.
It is not out in the paper yet, but I have seen it
before who was to read it before some "gentle"

and I have written to Mr. J. W. Gilchrist about it. You
will find it in the letter. I am sure it will be
a most interesting paper in this year's "Proceedings".
I would much like to have you read it
in the Spring. I am sure, however, you read
it in the latter part of January or early in
February? If you could do so, I would like
you to have it ready by the tenth of next
month. But no fear from me now.

Dear Sir :

Your letter of the 11th inst. to Mr. H. H. Vreeland, has been referred to me.

In reply, I enclose herewith a sample of the medal you request. The first two points in your circular, I suppose you will obtain from the medal itself. In answer to the third question, I would say that there were 2200 of these medals struck off. They were issued by the American Street Railway Association on October 9th, 1901, as a badge on the occasion of the Twentieth Annual Meeting of that Association. The name of the designer and die cutter was Whitehead-Hoag Company of Newark, N. J. They have the dies.

I was glad to hear from you and to hear that you and your family were all quite well. I hope to see you all sometime, but find myself anchored here by business in New Haven as you do in New York.

In regard to the matter of the commemorative medal that you speak of, I know that such a medal was struck for distribution among the official delegates sent here by other universities at that time. I think the best plan would be for you to communicate officially from your society to

Mr A. Van Name, Librarian Yale

request the gift of an exam-

should be obtained. If they

Dear Sir:

I regret that absence from the city prevents me from attending the meeting of the Society this evening. At the Annual Meeting in March last a resolution was adopted requesting the President to appoint a Committee of Inquiry to arrange for a public meeting in the Autumn to awaken public sentiment in favor of preserving the prehistoric remains in the North West.

I would report that after a conference with the Hon. L. Bradford Prince it has been deemed inexpedient to take such a step, at least at the present time.

Mr. Prince however requests that the Society pass a resolution deploring the depredations constantly taking place in the region in question and urging Congress to pass a bill by which these invaluable relics of the past may only be explored by duly authorized expeditions from accredited societies. If the Society approve, I would ask that such a resolution be introduced this evening.

the bronze powder, but
apparently it is a secret
and no one would tell.

I have a book on
bronzing, and could give
some formulas if the
party is willing to experi-
ment.

Wishing you all the
compliments of the season
Yours Truly

My dear Mr. Belden,
Late this afternoon I got the last
of the three G. L. Bages you left at
Putnam, and I took it with the others
and took them up to the Society and
put them in the box for you.
Excuse haste but the last mail tonight
is about to close and I want to post
this Merry Christmas.

THE AMERICAN NUMISMATIC AND ARCHÆOLOGICAL SOCIETY,

ACADEMY OF MEDICINE BUILDING,

17 WEST 43d STREET, NEW YORK.

New Rochelle, Dec. 28th 1901

My Dear Mr. Belden,

Your receipt
of your note and circular
regarding the badge of the St
Nicholas Soc. and in reply
can only say that the Soc. has
but one business meeting a
year, and that is held on
or about the 1st of each December.
So it will be some time before
I can bring the matter up
officially, but I will mention
your request to some of the
officers personally and see what
they think of it; possibly they may

be able to have a fac simile of
the badge struck for you.

Very truly Yours

My dear Sir:-

I do not understand how I have so long overlooked your communication in regard to this society. I am
very much pleased to hear from you, and forward you
the payment which I believe is due.

Thanking you for your note, I am

Yours very truly,

My dear Mr. Bilder.

I am sorry that I cannot make out the formulas for bringing clear. It requires a whole laboratory, and a trial of no less than 20 different receipts and more so a constant watching of result.

Later on when I shall have experimented myself I will be able to give definite directions.

Very truly yours

My dear Mr. Belden,

I am sorry I could not get up to the room yesterday afternoon, as I expected to have done but it was impossible, as I had to see to some matters of business. A little before six all the photos and the box of badges came from Putnam, and in the evening I took them up to the society room, and left them there for you.

Happy New Year.

Yours most truly

Mr Belden

Do you think that Mr
Salters when in London would go to
W & Lincolnson 69 New Oxford St
and get a copy of the "Tradesmens
Tokens of the 18th Century" by James
Atkins - It is published by
W & Lincolnson. Crown 8vo
432 pages 18 shillings

It is the standard work on the subject
